Supermarket Sales Data Analysis Report – Tableau Visualizations

1. Bar Chart: Total Sales by Product Line

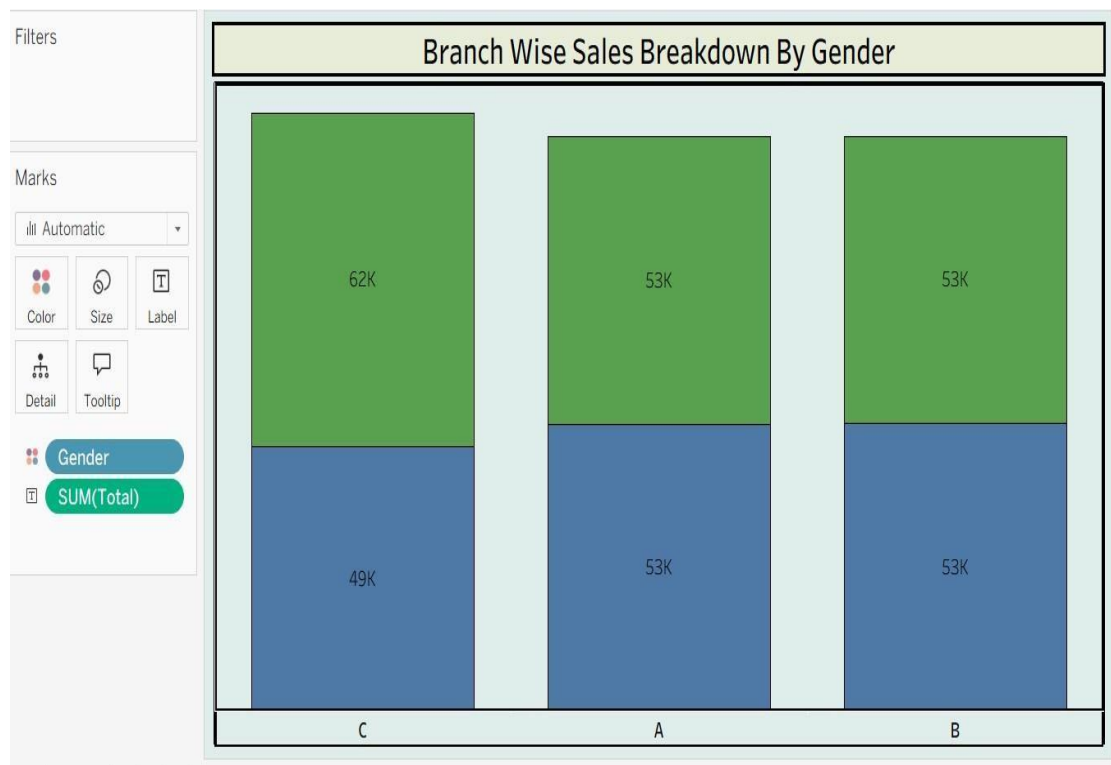

This bar chart compares the total sales for each product line.

2. Pie Chart: Branch Wise Profit

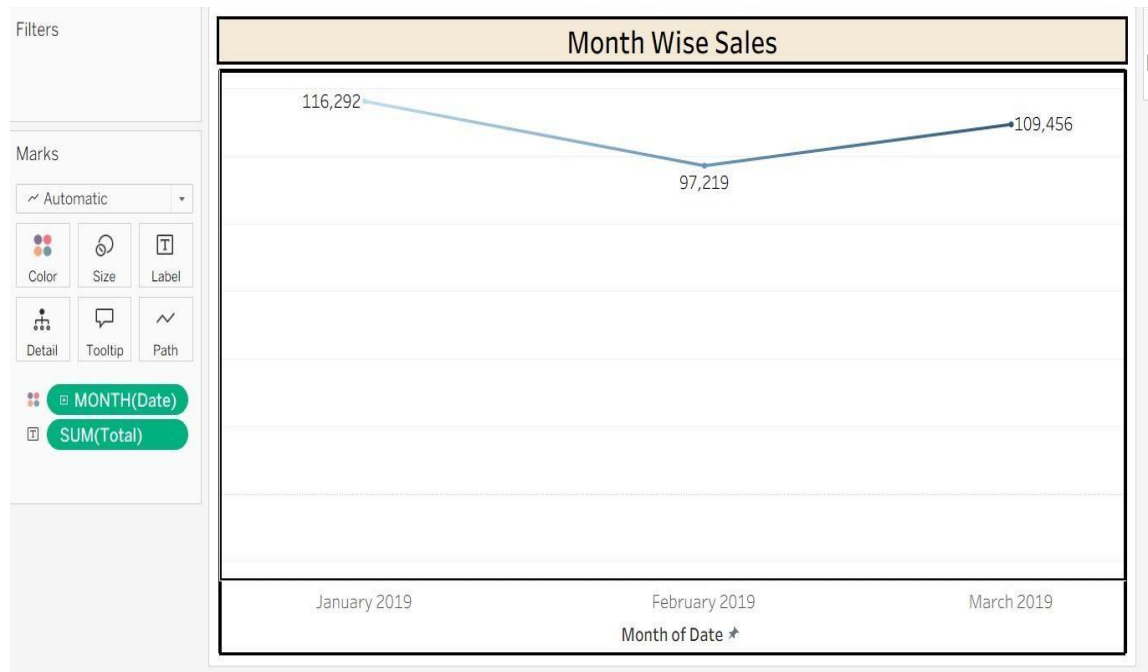

This pie chart shows the proportion of total sales made through different payment methods.

3. Stacked Bar Chart: Branch-wise Sales by Gender

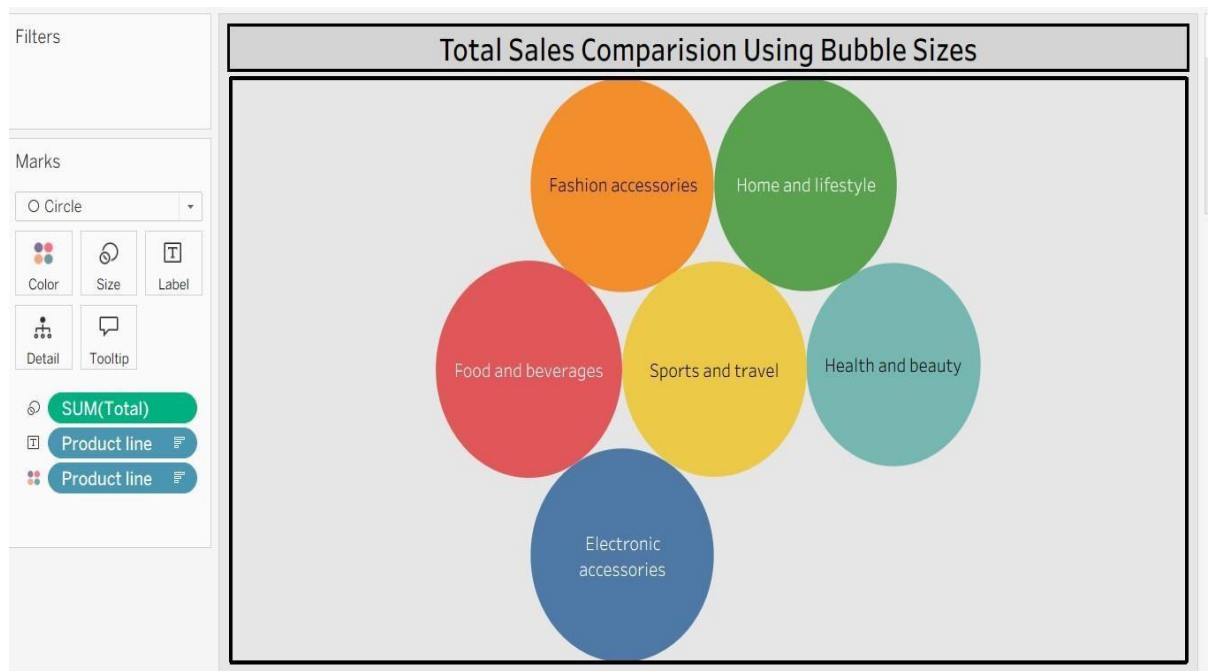

Each branch's sales are broken down by gender to analyse customer contribution.

3. Line Chart: Month-wise Sales

This line chart shows how total sales have varied from January to March.

4. Bubble Chart: Product Line-wise Sales

Each bubble represents a product line, its size indicates total sales volume.
